

Canada Dental Benefit

Factsheet

Tooth decay is the most common, but preventable, childhood chronic disease both in Canada and around the world. Oral diseases frequently begin in the preschool years which is why it is so important to establish good oral hygiene behaviours as soon as possible.

The Government of Canada has implemented the interim **Canada Dental Benefit**, which is designed to provide some financial support to help Canadian families access dental care. With this benefit, families can start addressing some of the basic dental care that their young children need while the Government continues its work to develop a long-term Canadian dental care program.

? WHAT is the benefit?

The interim Canada Dental Benefit provides payments **up to \$650** per eligible child under 12 years of age, per year for two years.

\$650

if the family's adjusted net income is under \$70,000

\$390

if the family's adjusted net income is between \$70,000 and \$79,999

\$260

if the family's adjusted net income is between \$80,000 and \$89,999

The benefit can be used for any dental care provided by any regulated dental professional.
